EDUCATION

IIT Kharagpur

M.Tech - Civil Engineering

06/2016 - 05/2018

Kharagpur, West Bengal

College of Engineering Pune (COEP)

B.Tech - Civil Engineering

06/2011 - 05/2015

Pune, Maharashtra

KEY PROJECTS AND ACHIEVEMENTS

True Collection and Incentive Prediction model

Encore Honors Gold Award for TC & incentive Prediction model in 2024, showed value of correct AM skill utilization with cost effective collection **reducing CTC by ~13% (Nominated for President's club award)**

Customer Retention & Lead Optimization

- Designed a customer churn prediction model using Logistic Regression and Deep Learning, improving retention by 28%.

- Developed an NLP-based customer feedback analysis tool to classify sentiments and key pain points, improving service resolution rates. Led a lead scoring project to optimize marketing efforts, increasing conversions by 18%.

SKILLS

python · SQL · Probability & Statistics ·

Machine learning · PowerBI ·

Predictive modelling · Data Science ·

Requirement gathering ·

SUMMARY

Business Analyst with 6+ years of experience in **requirement gathering, data analytics, business intelligence, and predictive modeling**. Strong expertise in **working with stakeholders to define business needs**, translating them into **data-driven insights and automated solutions**. Skilled in **SQL, Python, Power BI, and Tableau**, with a proven track record of **optimizing business processes, enhancing decision-making, and driving cost savings through analytics**

WORK EXPERIENCE

Manager - Strategy Analytics

07/2025 - Present

Encore Capital Group

Location

- Utilize **analytical expertise, problem solving skills and collaborative spirits** in different key initiatives in business development
- Leading multiple crucial business areas like **inventory forecasting, capacity planning, dials optimization & performance management**
- Helped in **exceeding P2G collections by 22%** in last calendar year
- Playing central role in **Annual budgeting process, cost forecasting, and balances prediction model**

Deputy Manager - Strategy Analytics

03/2023 - 07/2025

Encore Capital Group

Gurgaon, India

- Designed and developed **predictive models** for **forecasting customer payment behavior**, reducing cost-to-collect by **13%**.
- Conducted **A/B testing** to evaluate business strategies and drive **data-driven decision-making**.
- Created **interactive dashboards (Power BI, Tableau)** to visualize key business KPIs and support leadership decisions.
- Collaborated with cross-functional teams to implement **data-driven solutions** that improved customer engagement and collections.

Business Analyst

06/2022 - 03/2023

GoMechanic

Gurgaon, India

- Gathered business requirements** from operations and marketing teams to develop a **customer retention model**.
- Built a **predictive model (Logistic Regression)** using order and customer data, increasing customer retention by **28%**.
- Automated daily reporting using **Python, SQL, and NoSQL**, improving efficiency and compliance.
- Conducted **NLP-based text analysis** on customer feedback, leading to process improvements in customer support.
- Developed **Tableau dashboards** for real-time tracking of customer engagement, enhancing decision-making.

Data Analyst

10/2019 - 06/2022

InfoDeal Technologies

Pune, India

- Designed **custom BI dashboards** to track business KPIs, improving strategic decision-making.
- Conducted **A/B testing** on website features to evaluate impact on customer engagement and revenue.
- Developed **real-time monitoring systems** to track key business metrics and alert teams on performance changes.

Senior Design Engineer

07/2018 - 10/2019

Larsen & Toubro

Mumbai, India

- Worked as Pavement & Geometric design Engineer for Highways and Airport projects
- Statistical Modeling for estimating deterioration on pavements
- Led **requirement gathering** for infrastructure analytics and **statistical modeling of pavement deterioration**.
